

Get a Job as a CSR Scientific Review Officer

Help Shape the Future of Medical and Behavioral Research Become a CSR Scientific Review Officer

The Center for Scientific Review (CSR) is actively seeking scientists to fill several openings for Scientific Review Officers (SROs).

SROs help ensure the vitality of NIH peer review by using their scientific expertise and communication and interpersonal skills to—

- Analyze the scientific content of grant applications,
- Identify the scientists invited to serve on study sections and assign the applications each member will review,
- Organize and run peer-review meetings to assess grant applications,
- Provide applicants with a succinct written summary statement explaining how the review committee viewed the applications.

Enjoy the Benefits of Working for CSR

SROs are key professionals who are encouraged to remain current in their field by attending scientific meetings and conferences and obtaining additional training to further their professional development.

Job Requirements

The successful candidate will be a respected, accomplished scientist with maturity, integrity and outstanding communication skills. Requirements include an M.D. or Ph.D. in the biomedical or behavioral sciences (or equivalent training and experience); American citizenship; and a record of independent research accomplishments, documented by an outstanding publication record and administrative background.
